Graduation Completion Rate...	95%	* Certificates of Completion issued by the district	
		** Limited English Proficient (LEP)	

Highlights

The construction of the new Parma High School was completed in December 2005 with classes starting in the new building in January 2006. The new building has fostered improved instruction and increased advanced learning opportunities for students. A distance learning center was included in the new school to create on-line learning experiences for students.

The old high school building is being remodeled to house a fifth and sixth grade wing of the middle school. This creates a K-4 elementary building with improved space, a 5-8 middle school housed in two buildings, and a new 9-12 high school.

Progress Towards Meeting Goals

2005-06 Goals

Progress

School district facilities and grounds are maintained at the highest level.

Increased staffing, improved training, new and remodeled facilities have led to significant overall improvements to facilities and grounds.

School district policies are updated and reflect current statute, rules and regulations.

Nine out of ten sections of the district policy manual have been completely revised.

School administrators will direct staff members in improving student achievement to the point where all students demonstrate grade level proficiency as measured by state standardized tests.

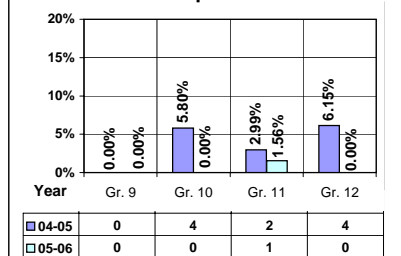

State standardized tests show overall improvements in most areas while several sub-groups continue to perform below expectations. Teacher training, additional programs, and expanded time for after school instruction will be used to improve student performance.

Note: Rank represents how this district compares to the other public school districts in the State of Idaho; high to low (1 being the highest).

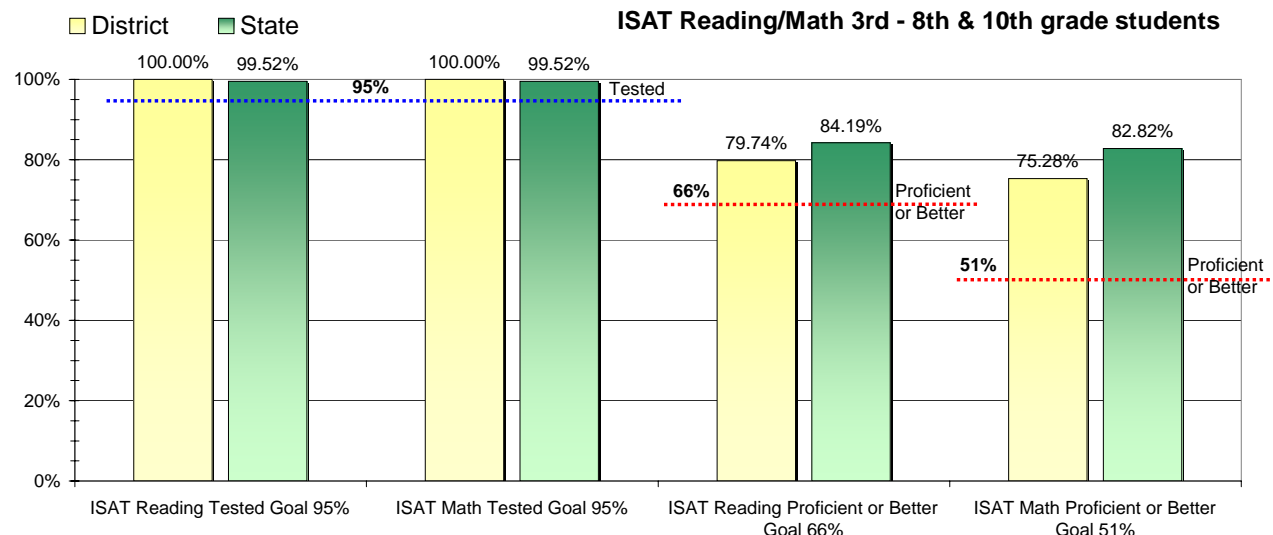

Adequate Yearly Progress and Assessment : 2005-06

Did Parma District make Adequate yearly progress for 2005-06? No

Percent of the 41 targets that Parma District made: 87.8%

The goal in our nation is for all students in grades 3 through 8 and 10 to be proficient in reading and math by the spring of 2014. Idaho uses the Idaho Standards Achievement Test (ISAT) and the Idaho Alternate Assessment (IAA) to measure proficiency. This report shows the percentage of students who met state goals for proficiency in reading and math.

More Information is available at: <http://www.sde.state.id.us/admin/ayp05/default.asp>

To Protect the privacy of individual students the following symbols are used.

^ No participation determinations are made for groups of less than 10 students. The participation rate of students in this group is included in district and state totals.

~ No proficiency determinations are made for groups of less than 34 students. The proficiency level of students in this group is included in district and state totals
